

REMARKS

New claims 10-15 are presented for examination in this continuation case to cover additional concepts described in the disclosure of this and the parent case. For example, new claim 10 relates to the embodiments of Figs. 1 and 4. New claim 11 relates to the example of Fig. 6, whereas new claim 12 relates to the example of Fig. 7. New claims 13 and 14 address embodiments shown in Fig. 2 (see also description from line 21 of page 9 to line 6 of page 10 of the specification). New claim 15 includes elements somewhat similar to those mentioned in claim 4, but cast as an independent claim to a driver circuit. It is submitted that all of the new claims are fully supported by the original disclosures of this and the parent case.

Prompt favorable examination of claims 10-15 is solicited.

Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 500417 and please credit any excess fees to such deposit account.

Respectfully submitted,
